PRODUCT INTRODUCTION AND PHILOSOPHY OF BMW PRODUCTS.

SUSTAINABILITY.

Sustainability is the red thread running through the entire BMW Lifestyle Collection.

All products are composed of high-quality sustainable materials, offered in timeless colours for long-term use. The cotton used in the collection is 100% organic and the insulation pieces are filled with certified RE:DOWN, a filling made from recycled down feathers. Whilst being sustainable, all materials do have a premium hand feel and are extremely comfortable to wear. It has never felt better to consume responsibly.

VERSATILITY.

By offering a broad range of branding options and colour executions, the collection appeals to a variety of consumers. All products are easy to match with consumers' wardrobes, whilst always staying close to the heart of the brand.

SOPHISTICATED DESIGN FEATURES.

Logo executions, labels, printing techniques and finishing touches always pay tribute to BMW's engineering excellence. The term 'FREUDE' has been incorporated into selected products to underline the ultimate goal of the collection.

PRODUCT CATEGORIES.

The new design aesthetic is introduced across multiple product categories from Apparel, Headwear, Bags and Umbrellas to Mugs and Socks. All easy to mix-and-match, complementing one another and resulting in the new total BMW look.
